1930 (Dec): *Chirogram* (Vol. 6, No. 10):

- Charles H. Wood responds to query re: "the usefulness to Chiropractic of International Congress?", says Wood (p. 10):

ANSWER: I do not feel that the International Congress is in any position to do anything of real constructive value for the Chiropractic profession, as I feel that it is just another "organization" to divide the Chiropractic field. The writer is firmly convinced that the National Chiropractic Association is the outstanding National Chiropractic organization and that its past performances and accomplishments entitles this organization to the support of chiropractors of all schools. The National Chiropractic Association, which is the old UCA and ACA amalgamated, has the background of the former usefulness of both named organizations and every chiropractor must admit that both the ACA and the UCA did a great deal for the advancement of Chiropractic.
- Charles H. Wood says (p. 10):

I think the *Lifeline* program is a very good one, and if the chiropractic profession responds to the efforts of the NCA which is attempting to put over this important program, the chiropractic profession generally will benefit.
- Charles H. Wood also notes that (p. 10):

The suit of Bert H. Humason versus the California Chiropractic Association is to be tried on January 5 in the Superior Court in Los Angeles County. This suit is for \$110,000 and if Mr. Humason obtains judgement against the CCA every member will be liable for the amount of the judgement

-The **LOS ANGELES COLLEGE MATERNITY CLINIC**" (p. 11):

The Los Angeles College Maternity Clinic will take care of all expectant mothers who are in very straightened circumstances and cannot afford the higher fees of a private physician, and also those who are entirely destitute.

This clinic is entirely financed by the college students and they will deeply appreciate your showing your interest in this work by sending your donations of anything that would be useful in this line of endeavor.

The **proposed naturopathic law** had as its chief sponsors a few Chiropractors in Northern California, one of whom is conducting a so-

- called naturopathic school. If this naturopathic bill should be passed, it would undoubtedly make it possible for a great number of short-course practitioners to open up and practice legally. It would also make it possible for a few individuals who are interested in "naturopathic institutions of learning" to make a great deal of money through the promotion of doctors of all schools who they evidently expect would be compelled by the passage of this "naturopathic" act to obtain licensure thereunder if they wish to practice physiotherapeutic measures. (p. 9)
- Charles H. Wood reports in "The Open Forum":
QUESTION: What is your opinion of the aquarian method of technique? ANSWER: The writer considers this just another 'system of technique' that was invented for those who are 'desirous of working miracles'" (p. 10)
QUESTION: How many chiropractic associations are there in California and which is the largest? ANSWER: There are two associations in California - one, the Progressive Chiropractic Association of California, Limited; and the other, the California Chiropractic Association. The Progressive Chiropractic Association is the larger in members, as they have about eight hundred members in the State. The CCA has a membership of between two and three hundred, according to the testimony of the secretary of this association in court in a recent law suit. (p. 10)
QUESTION: Why do you not reply to Dr. Palmer's criticisms of your magazine, as published in the *Fountain Head News*? ANSWER: The "*Chirogram*" is a constructive magazine and is not going to be drawn into any controversy with any contemporary publication. After all, to reply to such criticism could be likened to Don Quixote fighting the windmill. (p. 10)
- The *Chirogram* has the largest circulation of any Chiropractic magazine in the world." (p. 10)

The present Progressives are an entirely different group than the Progressive Association which worked with such telling effect for the Initiative measure in 1919-1922.....
Dr. Palmer's arrest has been threatened if he is engaged as expert authority on analysis of cases while here. Adjusting the sick of California is treated as though it were some kind of a graft for Chiropractors instead of an opportunity for the sick to get well.

Since taking over the management of the **Southern California College of Chiropractic** in January of this year **Fred D. Schuman** has made rapid strides in building up the college. Aply assisted by a board of directors, consisting of leading chiropractors representing the profession on the coast and a faculty second to none, the school has exceeded all expectations.

Enrolling over forty new students since February 1st and with every indication that new student material will gross the one hundred mark before fall, the college is making plans for the greatest activity in the history of the organization.

While Mr. **Schuman** has had previous experience in the public schools of Illinois, he has been fortunate in obtaining as Dean of the college, Dr. **Wolfe Adler**, a noted authority in school work, public lecturing and an unlimited knowledge of chiropractic.

In line with the policy of the college a curriculum has been formulated involving 4000 hours as covered by the amendment now generally accepted by the profession. Special free classes are being offered to the field in various subjects and lectures usually accompanied by motion pictures are a special feature every other Thursday evening in the college at 9th and Union Sts., Los Angeles. Inasmuch as this is a field-owned, non-profit institution, let's get behind the **Southern California College of Chiropractic** and make it second to none in the entire country.
