QUOTES

"...California - long a battleground for scope of practice test cases by advocates of both camps..." (Gibbons, 1982)

CHRONOLOGY

1900 (Feb 24): **Gordon M. Goodfellow** born in Valcartier Village, Quebec (Rehm, 1980; In Memoriam, 1975)

1925 (Mar): **Chirogram**, published by **LACC**, reports:

-**photo** of auditorium at new **LACC** building at 918 W 16th St; cover page also indicates **GSCC** has been amalgamated with **LACC/ECC**

-article by **Charles H. Wood** re: his new device: "The **diagnostic neurometer**, now called the **vibrometer**", which he co-invented with Harold HU Cross PhD, ME; a technical article in contrast with 12/24 issue's clinical focus (p. 2) (Wood, 1925a):

It was during the period of time that Dr. Cross was with the college that the writer attempted to make an electrical machine that could be used for the purpose of finding nerve impingements and spinal reflexes. Dr. Cross and myself experimented for about eighteen months with various electrical modalities, with the idea of discovering some way to make a machine that would be useful to Chiropractors and we were able to use the high frequency apparatus as well as the sinusoidal current and accurately determine nerve pressures. The work that we were doing at that time was discontinued because we felt that the time was inopportune for the use of machines, as there was much opposition throughout the Chiropractic field against anything that could be considered 'mixing', and I, as a school man, could not afford to incur the ill-will of the Chiropractor in the field, who was so violently opposed to the use of anything that savored of diagnosis, and indeed, I am pleased the BJ came out for the Neuro-Calorimeter, as his position on this matter but opens up the way for a broader and more progressive Chiropractic.

-notes **LACC** graduation exercises on 2/6/25; **Gordon M. Goodfellow** is among the graduates; EC **Fortin** MD DC is commencement speaker (p. 4)

-Dr Kritzer, former dean of the **Lindlahr** Institution in Chicago, speaks on iridiagnosis to **LACC/ECC** Alumni Association (p. 4)

-notes lecture by **Hugh B. Logan** DC on 1/20/25 to **LACC** student body; **Logan** is graduate of **Universal Chiropractic College** and practices in LA (p. 5)

-HE Clayton MD DC lectures on "so-called surgery for fractures and nerve division"; Clayton is graduate of **New York College of Chiropractic** (from which Wolf Adler also graduated in 1920) (p. 5)

-Advertisement: "The diagnostic neuro-meter" with **photo of monkey** (p. 8; Advertisement, 1925):

THE DIAGNOSTIC-NEURO-METER, invented by Dr **CH Wood**, now called diagnostic Vibro-Meter, DEMON-STRATES DEFINITIVE ANATOMICAL and PHYSIOLOGICAL LAWS. It is a machine made and used for the purpose of locating impingements of nerves any place in the human body.

It Positively Proves the theory of nerve impingements due to subluxations of vertebra, and can demonstrate this conclusively, proving its capabilities by doing ork that no other machine can do, and

further will convince by its power of detecting impinged nerves that the philosophy of Chiropractic is correct.

MEASURES RESISTANCE

The Diagnostic Vibro-meter is not a heat registering machine, but measures resistance of the nerve, or nerves that are impinged. It is an electrical machine and not a thermo-couple-galvanometer device and does not infringe in ANY way on ANY machine now on the market. It demonstrates that subluxations of the vertebra, impinging on nerves, alter the rates of vibrations of such nerves, thereby causing malfunction of certain organs and tissues.

AMAZING FACTS

The Diagnostic Vibro-meter proves that only an adjustment will remove the impingements and is the only machine now used for the purpose of spinal diagnosis that will definitely prove the above facts. The thermo-couple-galvanometer devices only record surface temperature and the readings from the patient's back can be altered by massage along the spine; by use of the Thermo-Lamp, by hot packs, and the many electrical modalities. This is readily demonstrable to anyone who will investigate.

PREVENTS MAL-ADJUSTMENT

The Diagnosis Vibro-meter readings can be altered only by a real adjustment, and any other method of treatment applied to the spine will not alter the readings of the machine. It positively picks majors and eliminates the possibility of over-adjusting -- or mal-adjusting; thus increasing the efficiency of the Doctor.

INVESTIGATE

A comparison with all other machines used for a like purpose is welcomed by the manufacturers, and requests to demonstrate to any body of scientific men will be welcomed.

Satisfy yourself. You are not asked to accept this machine until every claim we make for it has been absolutely proven. We will readily appreciate an opportunity to prove, beyond any question, that the Diagnostic Vibro-meter is the most accurate and reliable of any machine used for a like purpose."

Dr. **CH Wood**,

918 W. 16th St., Los Angeles, Cal.

1925: **Gordon M. Goodfellow** graduates from **LACC** (Rehm, 1980); had previously attended **ECC** (In memoriam, 1975)

1931 (Feb): **CCA Bulletin** (1[11]) includes:

-ad for **Blanchard Radionic Electrotoxinometer** with **photo**; "PAYS YOU BIG WHILE PAYING FOR ITSELF"; sold by Scientific Research Laboratories, WW Wilson Bldg, 5905 Pacific Blvd, Huntington Park, LA (p. 2)

- "LIBEL CLARIFIED BY FAMOUS DECISION" reports Burt **Humason**, former agent for the CA **BCE**, has lost suit against many DCs (including **Hugh B. Logan** & **John W. Hurley**) for libel (p. 3)

-**photos** of Clement J. Redmond DC and **Samuel J. Howell** DC who have recently been sworn in as new appointees to the CA **BCE**, suggests that **Howell** "should not have compromised himself and the profession by sitting in with Humason and his attorney at their table during the trial. Dr. Howell was a witness in this case and not a personal attorney for Humason as his lack of propriety might be interpreted..." (p. 8)

-notes visit by **Harry Vedder** DC of **Lincoln Chiropractic College** (p. 11)

-ad for **National School of Physiotherapy** at 444 S Western Ave, LA (p. 12)

- notes a jovial **Gordon M. Goodfellow**: "trying to kid himself into seriousness by wiping that smile off his face. That boy is the original dentifrice advertisement." (p. 14)
- reports visit by **BA Sauer** DC (p. 14):

Dr. **Benny Sauer**, secretary of the **National Chiropractic Association**, the amalgamated **Universal** and **American Chiropractic Association** was the guest of Southern California Chiropractic for the first week of the New Year.

Dr. **Sauer**, ever alert to the interests of the Association he represents, brought to us a bigger, broader view of Chiropractic and a firm belief in the future of Chiropractic organization....

- ad for "Sunlight Carbon Arc Lamp, enables the practitioner to use LIGHT THERAPY" including ultra-violet and infra-red, captions indicates "Radiates Vitality and quiets Nervous Irritability. A Natural Beauty Builder" (rear cover)

1932 (Mar): some 18,500 DCs, 7,650 DOs and 10,000 Christian Science and "New Thought" healers are estimated to practice in the USA (Reed, 1932, p. 106)

1933: **CCP&S** offers "Physicians and Surgeons Post Graduate Course": an "advanced course in medicine and surgery extending over a period of two years open to graduate chiropractors, who desire to increase their knowledge of therapeutics"; among the faculty were **Gordon M. Goodfellow** and **Vinton F. Logan**; instruction was complemented by experience in Bellevue Hospital, "a 60-bed general hospital owned and operated by the Chiropractic Profession"; Bellevue Hospital was known as a maternity facility (Gibbons, 1983); **1933 graduation photo for CCP&S indicates Goodfellow was on the Board of Directors rather than the faculty**

1933: according to 1933 graduating class **photo of CCP&S**, 21 graduates include 1 black and 4 females; the administrators are:

- *Rangnar C. **Bertheau** DC, ND, President
 - *Joseph W. Gannon DC, ND, Chairman, Board of Directors
 - ***Gordon M. Goodfellow** DC, ND, Vice-Chairman, Board of Directors (1925 grad of **LACC**)
 - *JP Mason DC, ND, Dean
 - ***RC Howe** AB, DC, ND, Sec'y-Treasurer
- faculty are:
- ***Clyde F. Gillett** DC, ND
 - *Mabelle Kelso Shaw DC, ND (she is a 1925 grad of the **GSCC**; will be member of executive board of **National-Affiliated Chiropractors of California** in 1935)
 - *Alice Papa DC, ND
 - *Helen L. Tilbury DC, ND

1934 (Jan 4): RC **Bertheau** and RC **Howe** of **CCP&S** sign matriculation contract for Sidney J. **Goodfellow** to study for DC and ND (LACC Registrar's Archives)

circa 1934-36: Budden (1951) recalls that:

That the private ownership of the institutions in a measure militated against a generous and wholesale upsurge to finance this idea is true and must be taken into account in appraising the situation prevailing at that time. Only an optimist, however, and one quite unfamiliar with the economics of chiropractic schools and colleges

would suggest that, by advancing scholastic requirements, more money could be made. The facts being quite the contrary, as we have intimated, the "school men" as a group hesitated. Some suggested that while the idea was a good one, the time was not yet. Nevertheless, Dr. **E.J. Smith**, young graduate of the **National College** and of Western Reserve University in 1921, gave the first real impetus toward what is now so far developed by establishing a four-year school in Cleveland, Ohio. The **Metropolitan College of Chiropractic** opened its doors to the **first four-year** students and the new era had begun. Shortly after this pioneer effort, the **National College** proclaimed that it would issue certificates of graduation "cum laude" to those who successfully negotiated its thirty-two months course. The writer of this article initiated this action and signed as "Dean" the first diplomas. It should be stated here, and with no sense of derogation of those who took a leading part in this advance, in the case of the **N.C.C.** certainly, the fact that a medical board of examiners held sway over chiropractic activities in Illinois, and to some extent in Ohio, tended powerfully to fertilize the soil in which the actual four-year course took root.

Almost simultaneously with these events, the new idea appeared in Colorado. The late **Homer Beatty**, head of the college in Denver and author of the well-known text, "Anatomical Adjustive Technique," now began to raise his voice calling for thirty-six months training. A vigorous advocate of any cause he espoused, the impact of his personality and propaganda soon began to make itself felt. Dr. **Beatty**, however, was not alone. Associated with him in this crusade were several of the teachers of the school, notably Dr. Niel Bishop, as well as a number of men "in the field." Behind them all, however, and adding powerfully to the growth of the movement, loomed the figure of **Professor Jones**, dean emeritus of **Northwestern University, School of Psychology**, and doctor of chiropractic of **National College**.

Now another voice from the far west was added to the growing debate. The pages of the **National Journal** began to reflect the views of **C.O. Watkins** of Montana. Logical, incisive persistent "CO." hammered away at the bulwarks of the short-course school of thought. There can be no doubt that his rapid rise to a leading place in the councils of the **NCA** brought powerful aid and comfort to the four-year idea.

It was, however, to Dr. R.D. **Ketchum**, of Bend, Oregon, that credit must go for giving final impulse toward definite action by the **NCA**. The doctor was at that time state delegate for Oregon, and was generally admitted to be one of the most influential and respected members of the then **House of Counselors**. It was as such that he issued his call to arms. Said he at the close of a short but powerful exhortation, "We have talked a lot about the four-year course, let us get busy and do something about it.

Some time previous to this event, however, a committee appointed by the **NCA** had been at work attempting to evaluate the status of the schools. The outline of an accreditation system already had emerged. The groundwork was being laid for what was to come. The challenge from the West then was caught up and echoed by this committee and the wheels began to turn. At this point there strode into the forefront of the picture a stalwart figure. Already a leading member of the committee, he now took a commanding position. From that moment on, the incisive logic, the mordant sarcasm, the merciless dialectic, coupled with a calm, rock-like resistance to criticism and opposition that is J.J. **Nugent**, served as a rallying point in the conflict which suged and eddied around the four-year idea.

Powerful aid now also came from members of the Executive Committee. The secretary, Dr. **L.M. Rogers**, as an executive, long a silent sympathizer, became effectively articulate on the affirmative side. Drs. **Gordon M. Goodfellow**, of California, Downs, of Montana, Harriman, of North Dakota; men from Iowa, from Illinois, from Minnesota, from Wisconsin, stood up to be counted for the new day in education. Thus ended phase one. (Budden, 1951).

- 1938: **CO Watkins** DC completes term as first chairman of the **NCA** Committee on Educational Standards, which he had initiated (reported in **Chirogram** 1974 (Nov); 41(11): 11-14); **Watkins** was elected to **NCA** Board of Directors in 1938; according to **Chirogram** 1974 (Nov); 41(11): 11-14:
- The Council of State Examining Boards had a similar program going on at the same time - one was offsetting the other.
- In 1938 Dr **KC Robinson**, president of the **NCA**, appointed Dr **Gordon M. Goodfellow** as chairman of the committee and allowed him to appoint the rest of the members. He appointed Drs **Wayne Crider**, John J. **Nugent**, LF Downs and FA Baker; thus combining the two groups as the Committee on Educational Standards. The self-evaluation request was sent to all of the then 37 chiropractic colleges in the United States, fifteen colleges responded and requested approval.
- In 1939 the Committee adopted the first criteria for the approval of chiropractic colleges, which has often been modified and brought up to date.
- In 1940 Dr John J. **Nugent** was hired as the Director of Education to inspect the colleges. In 1941 the first list of provisional approved colleges was issued.

Since taking over the management of the **Southern California College of Chiropractic** in January of this year **Fred D. Schuman** has made rapid strides in building up the college. Aply assisted by a board of directors, consisting of leading chiropractors representing the profession on the coast and a faculty second to none, the school has exceeded all expectations.

Enrolling over forty new students since February 1st and with every indication that new student material will gross the one hundred mark before fall, the college is making plans for the greatest activity in the history of the organization.

While Mr. **Schuman** has had previous experience in the public schools of Illinois, he has been fortunate in obtaining as Dean of the college, Dr. **Wolfe Adler**, a noted authority in school work, public lecturing and an unlimited knowledge of chiropractic.

In line with the policy of the college a curriculum has been formulated involving 4000 hours as covered by the amendment now generally accepted by the profession. Special free classes are being offered to the field in various subjects and lectures usually accompanied by motion pictures are a special feature every other Thursday evening in the college at 9th and Union Sts., Los Angeles. Inasmuch as this is a field-owned, non-profit institution, let's get behind the **Southern California College of Chiropractic** and make it second to none in the entire country.

Goodfellow** DC, chair, **NCA Committee on Education Standards** (Goodfellow **succeeded?** Crider, who **succeeded?** Watkins); notes Crider's premature 1939 rating of schools (Cleveland papers-CCC/KC)

1944: **Gordon M. Goodfellow** DC organizes a new **CCA** through merger of several other state organizations (Rehm, 1980)

1944 (July 26): **NCA** Council of Past Executives votes to sponsor the **Chiropractic Research Foundation** (**CRF**; today's **FCER**); **Gordon**

M. Goodfellow DC of California chairman of the board of the **NCA**, presents Articles and Bylaws for the **Chiropractic Research Foundation** to **NCA** Council of Past Executives (former Gavel Club); **Goodfellow** is one of the incorporators; on July 27 articles of incorporation are notarized in Cook County IL, and filed with the Secretary of State in Delaware (Schierholz, 1986, p. 3)

1944 (Aug): **The Chirogram** [11(4)] includes:
-editorial by **Wilma Churchill** AB, DC (pp. 5, 12):
"Fools rush in where angels fear to tread."

The Chiropractic profession has been becoming increasingly conscious of the need for unity. This has been exemplified by the merger of the associations of California into the present harmonious California Chiropractic Association.

For the past year the though has been milling around in the minds of the Chiropractors of California, and gradually gaining momentum, that **there should be an amalgamation of the schools in the North, and of the schools in the South**. The ultimate outcome of which would be one big, progressive institution of learning and research for each end of the State.

In any amalgamation there must be some few who will take the "bull by the horns," undertake the preliminary steps, and lay the groundwork to bring about the materialization of the original idea. Therefore, knowing that it was in the interest of Chiropractic and the wish of the profession that such a move be made, Dr. **George H. Haynes** and Dr. **Henry G. Higley**, principal stockholders of the **Southern California College of Chiropractic**, and I have laid such necessary groundwork.

Due to lack of time, it has been necessary that a great deal of the preliminary planning be already completed before consulting many in the profession. However, a few of the more active doctors, Drs. Goodfellow, Eacrett, Montenegro, etc., have been told of the plans.

The curricula of the two schools have been carefully scrutinized and it has been found that the students of both schools can be carried through the remainder of their courses with practically no rearrangement of classes, and no delay of the time of graduation. In fact the students will profit by the increased faculty and the combined efforts and facilities of the two schools.

The Southern California College of Chiropractic and the Los Angeles College of Chiropractic have both, in the past, been at a loss to properly accommodate those in the profession who have sought to obtain post graduate instruction. It is **part of the plan of the amalgamation to make available to the members of the profession a post-graduate course separate and distinct from the under-graduate school**. The graduate course will be a progressive one and will afford an opportunity for research and development of new phases of diagnosis and treatment.

While the final arrangements have not been completed, it was felt that the amalgamation would not be endangered by giving out this advance information. Those who are earnestly interested in doing that which is for the best interests of the profession cannot help but support such a program. It has been gratifying to find such a unanimity of thought and desire for the advancement of Chiropractic as manifested by them up to now, complete lack of criticism of opposition to this worthwhile movement.

The ultimate goal is, of course, that the Chiropractic institutions shall be owned by the State Association. And it is to this end that everyone is working. It is only a matter of time before the Association will be in a position to consummate such plans.

CALIFORNIA

DR. NUGENT STRESSES EDUCATION.

To the many pre-arranged meetings held throughout the length and breadth of California have come hundreds of members of our profession to hear the educational aims and objects of the **NCA**, as revealed by its Educational Director, Dr. John J. **Nugent**, New Haven, Conn. Having arrived in this state just five weeks ago, his message of chiropractic education has already been heard all over the state.

Public school teachers, city, county and state officials in the department of education have already heard his message and though they came primarily to scoff and chide many stayed to congratulate and encourage this educator who represents us even in this Nation's Capitol. As the days pass the trying work of presenting this great program in advanced chiropractic education continues to grow greater and the stress is now beginning to show. But Dr. Nugent is happy; happy because he has found not only appreciative audiences to whom he addressed his messages but he also found the "response" from his audience that has been so greatly needed in this state. If the **NCA** will permit Dr. **Nugent** sufficient time in California we feel this great mission, so newly launched, will attain to mature growth and secure entrenchment.

Due to a grave heart disorder, Dr. J. Ralph John has had to give up his work as State Chairman of the **Chiropractic Research Foundation**. In acknowledging the letter of recognition from Dr. John, our state president, Dr. I.A. Dundas, expressed warm appreciation for the ability shown by Dr. John in his initial organization of the 24 districts in this state. With regrets the board of directors accepted the recognition and offered a resolution of thanks and appreciation to the man known to us so dearly as J. Ralph.

The **CRF** has been one of the major subjects of Dr. Nugent's many talks out here and in all of them he has praised highly the work done by the John's committee in behalf of the **CRF**, and most highly has he offered his praise to its fine and able leader, Dr. John. - Reported by E.H. Gardner, D.C., **NCA** State Director.

-trained with Homer York; was alarmed with straight chiropractors willingness to treat serious respiratory infections with spinal adjustments only

Audio-taped interview with J. Keating on Saturday, 5/11/91 in Whittier CA

-attended Southern California College of Chiropractic (SCCC), which emphasized "physician-surgeon possibility" for DCs; school was aligned with NDs and DOs, wished to increase scope of practice to include "at least minor surgery and the use of certain medicines"

-interdisciplinary faculty at **SCCC**: DCs, MDs, NDs, DOs, DSCs and athletic trainers

-"strapped the foot, various pads and tapes to take care of all kinds of ordinary chiropody ailments...."

-"we covered arch-supports, particularly the kinds chiropodists would make in their own offices...pads were glued into the shoe..."

-"we also did a lot of taping of the foot...."

-all foot manipulation instruction from DCs; DSCs didn't teach foot manipulation

-overall, not a great deal of instruction in footcare; most students were not interested; however, a few DCs were quite interested, especially those involved in dealing with sports injuries (circa 1940), who did a lot of taping

1943: Dr. D in navy at amputation/rehab center of naval hospital in Vallejo CA, where he was in charge of the PT department; when Lt Commander (MD) arrived to take over department, Dishman (not commissioned) was required to get MD's prescription to adjust patients

-"in about two months I was fully occupied giving adjustments"

-**Ted Shrader** DC worked in brace shop at same naval hospital, made foot orthotics

1947: Dishman teaches his first footcare seminar to 25-30 doctors at Royal Palms Hotel; not college-sponsored because **LACC** had no post-graduate program; Dishman had already published several papers on chiro footcare

1947: speaks with **Lee Norcross** at **LACC** re grad school offerings in orthopedics and footcare

1948: Dishman moves to Pomona, starts foot orthotics lab in Pomona; "got away from **LACC**, and the next thing I knew Dr. **Lipe** had started the orthopedic class about 1948. I came back...."; continues to operate Pomona lab

-Dishman taught **LACC** grad seminars at various CA cities

-Dr Webb (**LACC? SCCC?**) regularly treated feet by manipulation (DC?, **maybe DO?**)

-Dr. **Hoard?** (DO) was an "excellent manipulator of the foot"

-faculty at **COP&S** did foot manip; occasionally gave foot technique seminars at **SCCC**; "it was quite specific"

-Delbert J. **Metzinger** DC "he was an excellent foot manipulator....he manipulated every joint in the body... one of his students was **Elmer Bones**" who later served on faculty at Hollywood College of Chiropractic

-"Metzinger lineage" included **Elmer Bones**, AI? Logan (no relation to Vinton; wrote book on manipulation), Franklin Miner

-**Metzinger** and Hiss Clinics were "leading" providers of foot manipulation

-Dishman also learned foot manip informally from Mel Wheadon DC

-**Metzinger** and **Bones** strove for audibles, sometimes hurt patients; **Metzinger**, **Ratlidge** and **Homer York** were exclusively "articular thrusters"

-Dishman prefers osteopathic techniques ("relieving fibrosis by mobilization rather than thrusting") & soft-tissue methods & stretching because more gentle, painless

-Hiss Clinic: surprised Dishman; elevated chair for seated manip, some standing manipulations; no table; Hiss had a "volume practice, but not as much as Locke"; Hiss Clinic emphasized "high velocity thrusting"

-"Locke was a legend....probably an exaggeration....all different types of people.....ballet and other dancers were disabled....", got quick relief from Locke

-Locke's methods: Dishman had heard that "he delivered a high velocity kind of thrust, and he did it very quickly. All the Locke maneuvers that we've been taught were high velocity thrusting...."
